

## iOverlay Engage

<b>Description:</b>	Interactive Call to Action (CTA) that allows users to further engage with brands via microsite experience within the video player; includes direct click through URLs, Social Media features, additional content pieces and photos, brand/product information and more. iOverlay Engage unit is located over video content on the lower third of the player and can expand to a larger slate while remaining in the player environment. Video content automatically pauses when slate is expanded. Best uses: branding, engagement/interaction based campaigns without pre-roll video asset
